

AsthmaCon

VISD is dedicated in continuing education regarding our students with certain health care needs. Our school nurses are continually seeking educational opportunities to stay up on current treatments and changes in healthcare. This Virtual Asthma Conference was shared with our Nurses and we felt it was something that would be beneficial for our parents and students as well, and would like to share it with you. You simply register for the virtual conference at NO COST and then follow links to the sessions that interest you. If you have a child with Asthma, you know the benefits of continuing education! We hope this is beneficial for you!
